Dear Chairmen Wyden and Upton, Senator Hatch, and Representative Waxman,

On behalf of the Partnership for Medicaid – a nonpartisan, nationwide coalition of safety-net providers, counties, labor and health plans – we would like to express our support for ensuring continued funding for the Children’s Health Insurance Program (CHIP) through fiscal year (FY) 2019, before the conclusion of the 113th Congress. We believe it is imperative to take action this year to ensure that children, adolescents, and pregnant women are not put at risk of losing coverage as a result of a delay in CHIP funding authorization until we approach the end of the current expiration date at the end of FY 2015.

As organizations whose members provide health care to underserved populations, we see first-hand the difference that stable, affordable health coverage makes for children, adolescents, pregnant women, and their families. CHIP serves as a lifeline for many lower-income families that do not qualify for Medicaid and cannot afford private coverage. Expiration of the program would be an extraordinary detriment to the more than 10 million children and adolescents, along with 370,000 pregnant women, who will be enrolled in CHIP during FY 2015. Further, the GAO estimates that if CHIP is not extended, nearly two million children currently enrolled in CHIP – almost 20 percent – could become uninsured due to an unintended consequence in the Affordable Care Act, known as the “family glitch.” This provision excludes employer-sponsored family coverage from affordability requirements, yet leaves these same families ineligible for premium assistance. It is unacceptable to knowingly leave these children, adolescents, and pregnant women without access to care by allowing CHIP to expire.

We thank you for your ongoing leadership and work on behalf of hardworking families who rely on CHIP for access to affordable, quality health care. We support your efforts to extend CHIP, and again respectfully request your swift action to reauthorize this program before the end of the
calendar year. We look forward to working with you and your colleagues to move this legislation forward.

Sincerely,
