

Funding the Future of Disability Services

Funding the Future of Disability Services

Hello,

My name is _____
and I live in _____, zip code _____.
I am the _____ of a person with
an intellectual and/or developmental disability in
your district. My loved one receives supports from
an organization called _____
which are almost entirely funded by the safety net.

**I am concerned about the bills in the House
reforming the safety net, in particular how the per-
capita caps are calculated, since that could lead to states
reducing coverage for optional services and populations.
My loved one's life and livelihood depend on these services.**

These bills MUST do better for the disability community.
