

**Please join United Rheumatology  
Sunday, May 6, 2018 | Hotel Nikko in San Francisco, CA**

Come learn how our products and services support over 420 rheumatologists in more than 35 states and discover how United Rheumatology's team can help support and sustain your practice.

United Rheumatology is the nation's pre-eminent service organization supporting practice autonomy for community rheumatologists, representing and empowering them to advance the standard of care while demonstrating value, optimizing practice operations, and strengthening the doctor-patient relationship.

Specifically, United Rheumatology provides members with the following core services:

- significant group purchasing pricing advantages
- complementary practice assessments
- payer contract support
- assistance with prior authorizations
- insights into your patient's adherence to self-administered prescriptions
- a Qualified Clinical Data Registry that is CMS-approved for MIPS reporting in 2018

In addition, we are piloting various new value-based payment models with payers and offer members the framework to join in our efforts to engage payers.

Our mission is driven by our shared commitment to remain independent and to advance the standard of care for our patients. We work together as "one voice" to address the current major challenges to our practices from CMS, commercial payers, integrated health systems, and large hospital networks.

Registration begins at 1:00 pm with lunch and presentation beginning promptly at 1:30 pm. Please register by visiting [www.unitedrheumatology.org/cra](http://www.unitedrheumatology.org/cra). You must register in advance for this event as seating is limited.

We hope you can join us and look forward to seeing you!

Sincerely,  
United Rheumatology
