James J. Donelon, Commissioner of Insurance  
Louisiana Department of Insurance  
ATTN: State Innovation Waiver Proposal  
P.O. Box 94241  
Baton Rouge, LA 70804

Re: Louisiana Section 1332 State Innovation Waiver

Dear Commissioner Donelon:

The Epilepsy Foundation and the Epilepsy Foundation Louisiana appreciate the opportunity to submit comments on Louisiana's Section 1332 State Innovation Waiver.

The Epilepsy Foundation is the leading national voluntary health organization that speaks on behalf of the at least 3.4 million Americans with epilepsy and seizures. We foster the wellbeing of children and adults affected by seizures through research programs, educational activities, advocacy, and direct services. Epilepsy is a medical condition that produces seizures affecting a variety of mental and physical functions. Approximately 1 in 26 American will develop epilepsy at some point in their lifetime.. For the majority of people living with epilepsy, prescription medications are the most common and cost-effective treatment for controlling and/or reducing seizures, and they must have meaningful and timely access to physician-directed care.

The Epilepsy Foundation and the Epilepsy Foundation Louisiana believe everyone should have quality and affordable healthcare coverage. A strong, robust marketplace is essential for people with epilepsy to access the coverage that they need. The Epilepsy Foundation and the Epilepsy Foundation Louisiana support Louisiana's efforts to strengthen its marketplace by submitting this 1332 State Innovation Waiver to implement a reinsurance program.

Reinsurance is an important tool to help stabilize health insurance markets. Reinsurance programs help insurance companies cover the claims of very high cost enrollees, which in turn keeps premiums affordable for other individuals buying insurance on the individual market. Reinsurance programs have been used to stabilize premiums in a number of healthcare programs, such as Medicare Part D. A temporary reinsurance fund for the individual market was also established under the Affordable Care Act and reduced premiums by an estimated 10 to 14 percent in its first year.<sup>1</sup>

Louisiana's proposal will create a reinsurance program starting for the 2019 plan year and continuing for 5 years. This program is projected to reduce premiums by 17.3 percent and increase the number of individuals obtaining health insurance through the individual market by 7.5 percent. This would help patients with pre-existing conditions, including patients with epilepsy, obtain affordable, comprehensive coverage.

The Epilepsy Foundation of the Epilepsy Foundation Louisiana believe the 1332 State Innovation Waiver will help stabilize the individual market in Louisiana and protect patients and consumers. Please do not hesitate to contact Abbey Roudebush, Government Relations Manager, at 301-918-3784 or [aroudebush@efa.org](mailto:aroudebush@efa.org) with any questions or concerns. Thank you for the opportunity to provide comments.

Sincerely,

A handwritten signature in black ink that reads "Allison DeBattista".

Allison DeBattista  
Executive Director  
Epilepsy Foundation Louisiana
